

# Snowbird Haven: Golfing in Arizona

Mention golf and the Sonoran Desert and players immediately envision a towering saguaro cactus reaching for the sunshine, while the desert floor painted in rich greens takes golfers on a step-stone journey through the green. For Chicago's snow birds, the mild winter season in Arizona is one of the reasons many people have golf club traveling bags. This is *the* destination for golfers. Flights from Chicago's airports are usually direct, and that translates into an "off the tarmac" round as soon as you sign for that rental car.

If you spend a little time on the practice green, you'll quickly discover that one of the fastest growing states is filling with former Chicagoans that voted with their feet against snowplows and window-scraping and have relocated to the desert. The golf courses of Arizona are not unlike the Sonoran Desert; despite a harsh climate, abundant wildlife and native plants thrive in this environment, as do the golf courses and resorts.

If you are between spring training games, hiking around Tucson, or shopping in Phoenix, an exciting round of golf is just minutes away. You will find much more than bunkers and tee boxes while on holiday in Arizona. The desert has hundreds of species of living creatures that are not in the Midwest, including jaguars near Tucson. Whether you are looking to play a round, pamper yourself at a resort, play a PGA Tour course, or chase a white ball in a jaguar's backyard, Arizona golf provides a great escape from frostbite and flurries.
